Data Scientist

Northwestern Mutual   March 16, 2021

Milwaukee, WI

Application for Lead Data Scientist

Dear Hiring Manager,

I am interested in the Lead Data Scientist position currently available at Northwestern Mutual. This position is a perfect match to my skill set and interests. I have a PhD in Engineering that focused on multivariate statistical modeling. Through professional experience and continuous learning I furthered my skills to become a well rounded Data Scientist. I can analyze, develop and adapt complex statistical models and machine learning algorithms to the specific needs of your organization. I can also design experiments to tests hypothesis and answer questions of value to Northwestern Mutual. Furthermore, I can handle, clean, analyze and visualize large data sets, and generate automated reports. I use either R, Python or SQL depending on specific project goals.

The available Lead Data Scientist position seems like a fun and exiciting challenge, and I hope you and I have the opportunity to talk about it.

Thank you for your consideration.

Sincerely,

Carlos Felipe Alcala Perez
